

◆ PROPOSAL

WHITE PAPER

Prepared By : *Project Team*

Introduction

-In a world rapidly evolving through digital innovation, TOULG emerges as a next generation cryptocurrency designed to bridge the gap between decentralized finance and real-world usability. Represented by the token symbol TOL, TOULG aims to empower users with a secure, efficient, and community-driven ecosystem that .promotes transparency, inclusion, and long-term value

The vision behind TOULG is to redefine how individuals interact with digital assets by -offering a platform that integrates DeFi tools, smart contract functionalities, and real world utility in one seamless experience. Whether you are a trader, developer, or everyday user, TOULG provides the tools and opportunities to participate in a .decentralized future that is both accessible and rewarding

This whitepaper outlines the foundation, architecture, tokenomics, and future roadmap of TOULG, illustrating how TOL will play a central role in powering a new era of .decentralized engagement and economic freedom

Project plan

Total Supply = 1000000000

pre-sale = 600000000 Liquidity = 210000000

Development = 70000000 airdrop = 40000000

promotion = 30000000 Closed reserve = 50000000

TOULG (TOL) is a newly launched cryptocurrency inspired by the grandeur of ancient Rome, officially created on May 4, 2025. The project aims to combine historical legacy with cutting-edge blockchain technology to offer a unique financial experience. The presale of TOULG is scheduled to begin on May 14, 2025, giving early supporters an opportunity to join the community. Liquidity will be added four business days after the presale ends, ensuring a stable trading environment. An airdrop is planned for TOL holders 15 days after the official listing, rewarding long-term believers in the project. TOULG is designed to build a sustainable and culturally rich ecosystem that honors the past while embracing the future.

Security, Commitment, and Long-Term Vision — Sealed in the TOULG Token.
To ensure trust and long-term sustainability, TOULG takes bold steps few projects dare to take. Liquidity will be locked for a full 3 months, sending a strong signal of commitment to our community and investors. The team tokens are also secured with a vesting schedule, releasing gradually to prevent dumps and align efforts with the project's growth. In addition, our reserve tokens will remain locked for 4 months carefully preserved to support future partnerships, technological advancements, and strategic expansions.
.This isn't just another token — it's a fortress built for the future
